

LombaMum'®

LombaMum® is the only maternity belt to provide support without exerting pressure on the abdomen, combined with a high degree of wearer comfort and **one size, fully adjustable, to fit all.** A safe support system with unique characteristics.

LombaMum® has a unique bowl-shaped front with a V-shaped rib. It supports the underside of the tummy without exerting pressure on it.

LombaMum® is provided with extra bands for variable adjustments and flexible support. This guarantees optimum support throughout the day when different activities are performed.

Comfort:

Premium, soft materials combined with bamboo and a strong Velcro strip ensure that **LombaMum®** is a very comfortable, attractive and firm fitting back band.

LombaMum® is the only lumbar band for use during pregnancy in one universal size. With the extra front band supplied as standard, the product suits women with waist sizes from 82 to 125 cm.

LombaMum'® 0805 01

Waist Measurement 82 - 125 cm

Height 21 cm
